THE MISSION of the Jason Birnbaum Junior Golf Camp is to offer the finest coaching available in the metropolitan area to serious young golfers. Students will have the advantage of being in a structured learning environment that allows them to utilize state-of-the-art video and computer technology. This technology includes high speed video cameras, golf analysis software by JC Video, and launch monitor technology presented by Zelocity. Students will spend time both on the practice range and out on the golf course, learning what it takes to compete successfully on the high school or college level and how to make continuous and long-lasting improvements to their game.

EACH WEEK of the Junior Golf Camp will focus on all aspects of the game, with specific attention given to a weekly topic. A low student-to-teacher ratio of 4:1 is guaranteed at all times throughout the program. Our team of coaches will work to develop a specific program for each student based on their individual needs and goals, including proven drills and training exercises that ensure student improvement.

STUDENTS WILL RECEIVE personalized instruction from Jason Birnbaum and a proven staff of golf teaching professionals. All aspects of golf will be covered, from full-swing and short-game technique to on-course playing lessons. There will also be time spent covering the rules of golf and golf course etiquette.

EQUIPMENT ASSESMENTS will be available for each student to go through and they will have the option to improve their equipment in all areas. Our staff will work closely with each student to prepare them for tournaments if they are interested in participating in competitions throughout the summer. Although it is encouraged that students enroll for the full four-week program, they may elect to sign up for a shorter period of time.

"Jason Birnbaum has helped me to achieve my goals of playing on the PGA Tour, and there is no better instructor to help junior golfers of all abilities achieve their goals and aspirations in the game."
